INSTYLE

BUZZ 690

CONTENT Face: 100% PVC,
Back: 100% brushed polyester knit

WIDTH / WEIGHT 54" / 18.67 Oz Linear Yard

REPEAT None

FINISH Resilience^{SR}

DURABILITY  100,000 Double Rubs

PERFORMANCE    
Meets all ACT standards

SEAM SLIPPAGE
ASTM D4034-92 40 lbs Warp, 29.9 lbs Fill

PILLING
ASTM D3511 N/A

LIGHTFASTNESS
ASTM D3511 Class 4.5 (660 Hours)

FLAMMABILITY
Cal 117
AS/NZS 1530.3
AS/NZS 3837
NFPA 260
IMO A.652 (16)

APPLICATION Upholstery

CLEANING CODE Resilience SR - Bleach Cleanable:
Diluted 1:10

PERFORMANCE

- BUZZ provides all the benefits of a high performing vinyl plus more with the Resilience^{SR} finish.
- Resilience^{SR} represents the latest technology in vinyl protection, enhancing performance where it is needed the most. Resilience^{SR} is engineered to be long lasting, even after repeated cleaning and wear.
- **Permanent Stain Protection:** The Resilience^{SR} finish guards against most stains. Most stains can simply be wiped away using mild soap and water.
- **Antimicrobial + Antibacterial Protection:** The Resilience^{SR} finish is engineered to inhibit bacterial growth as well as fungus, mould and mildew spores, resulting in a more hygienic environment. BUZZ has been tested to: AATCC 147 Antibacterial Activity Assessment of Textiles: Parallel streak method and ASTM G21 Resistance of Synthetic Polymeric Materials to Fungi.
- **Waterproof + Water Resistant**
- **Easy to Clean + Bleach Cleanable:** Easily cleaned with mild soap and water. Can be easily disinfected using one part bleach and ten parts water.
- **Abrasion Resistance:** Resilience^{SR} provides additional wear properties and surface durability, thereby increasing the life of the material. BUZZ is able to withstand wear and tear in high demanding situations.
- **Superior Lightfastness:** Achieves greater than 500 hours light fastness.
- **Excellent Strength:** Knitted fabric backing provides excellent tear and seam strength, with excellent stretch and tailoring properties.

ENVIRONMENT + GREEN STAR

- Environmentally Improved Production Process: new phthalate-free formulation, reduced water and energy consumption, solution dyed product and recycling of water.
- BUZZ can be used on white furniture certified to Ecospecifier, AFRDI, GECA and ECNZ.
- The Green Star Rating Tool states "Where at least 90% of an item's mass is certified to a GBCA recognized standard, the item can be entered as a certified product at Level A, B or C." Therefore any fabric can be used as fabrics are almost always under 10% by weight of a furniture item.
