# SAHARA

<b>DESIGNER</b>	Gabriel Tan
<b>CONTENT</b>	Tile: 100% Cork Cleats: 100% Aluminum
<b>THICKNESS</b>	2.3"
<b>DIMENSIONS</b>	17.7" (h) x 17.7" (w)
<b>WEIGHT</b>	2.4 lbs
<b>FLAMMABILITY</b>	Please Inquire
<b>ACOUSTIC</b>	NRC: 0.15

**DESCRIPTION** Sahara is a wall panel system made of waste material from the production of wine corks in Portugal. Its shape is as simple and spontaneous as a sand formation carved by the wind. Sahara's shape is the perfect starting point for creating a multitude of patterns.

## BENEFITS

**Designed for the Environment:** Sahara is manufactured on the basis of technical, environmental and production ethical requirements. There are no emissions to air, water or land during the production of Sahara. The sound-absorbent core of Sahara contains recycled cork and meets applicable requirements for traceability. Sahara is recyclable.

- HHI Compliant
- Declare CDHP Emissions Compliant
- EPD

**Installation:** Sahara panels are vertically or horizontally mounted on hidden cleats previously secured to the wall. Rotating tiles will create beautiful formations in the spirit of drifting desert sand. Due to the nature of cork it is recommended to not move tiles after installation. Panels need to be permanently positioned.
