HOLLY

DESIGNERS	Runa Klock & Hallgeir Homstvedt
CONTENT	
Absorbers	100% Soundfelt REC (recycled fabric waste)
Covering	100% Polyester
Light Globe	100% Opal glass
DIMENSIONS	Formations vary depending on orientation, see previous page for full details. Each globe has a diameter of 9.8"
WEIGHTS	
Vertical with light	24.7 lbs
Vertical no light	21.2 lbs
Horizontal with light	27.8 lbs
Horizontal no light	24 lbs
FLAMMABILITY	Please inquire
ACOUSTIC	NRC: 0.70 - 1.0 Depending on orientation and location. Please refer to graph on following page.
APPLICATION	Ceiling
DESCRIPTION	Holly acoustic lighting is sculptural and enigmatic. It plays with the contrasts between light, reflection, and shadows. Holly is available in two versions: a vertical one suitable for lobbies & other high-ceiling spaces, as well as in corners for increased acoustic effect; and a horizontal one that can be suspended over large tables in restaurants, bars, and workspaces.

Mounting: A simple bracket is mounted to the ceiling with a 19.7 foot wire and same sized electric cable included. The acoustic lamp has a metal stand that is painted black. The bracket with hardware, wire, and cable are all included. More information can be found on the installation + care document on unikavaev.com.

Lighting: Lamps included: E27, 500 Lumen, Kelvin 2700. Luminaire is dimmable. Please note that the DALI light control is not included and must be purchased separately from others.

Improved Sound Absorption: Holly is ideal for low-frequency absorption by means of its sound-absorbent core. The core, comprised of recycled fabric, has been transformed into Soundfelt REC material.

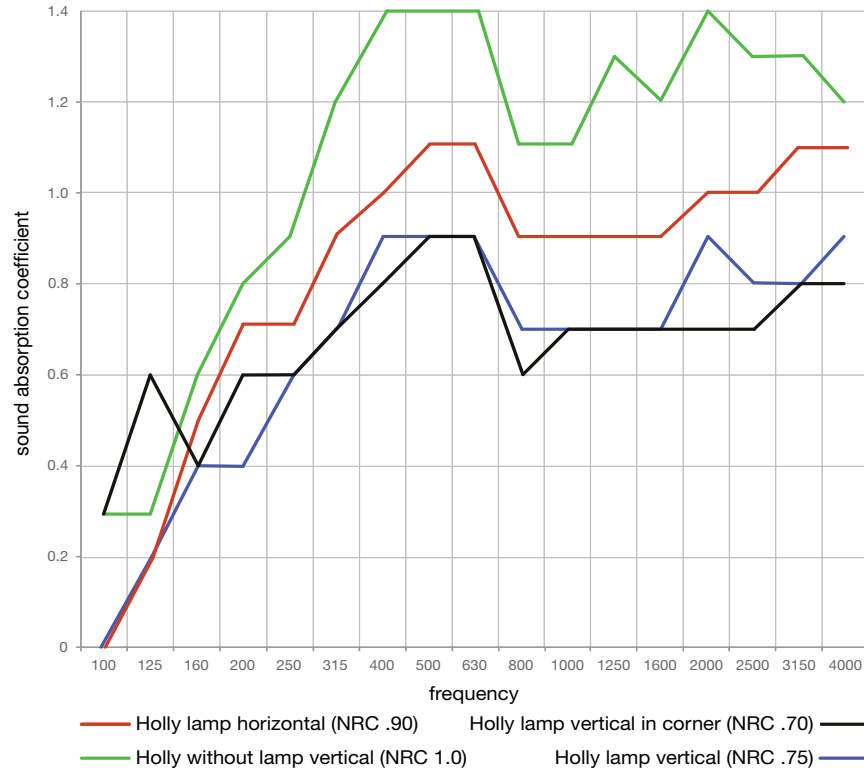

CARE: To preserve the fabric color and appearance, Holly should be vacuumed regularly with a soft nozzle attachment.

Stain Removal: Dab or wipe gently with a moist cloth.
