# Light Beam Installation Instructions

1. Light Beam baffles are 48" in length and come [4] per kit.
2. Light Beams can be hung individually or combined to produce longer lengths.
3. Please refer to the Beam installation instructions for combining Light Beams to each other.
4. Light Beam *Narrow* comes with [3] lights installed while *Wide* has [6] lights. Each kit has [1] power supply. Light Beam with *Up Light* comes with [1], long LED bar.
5. Each Light Beam will have [1] power cord. Connect each power cord to the pigtail on the power supply. Place the power supply in an inconspicuous location (usually above ceiling tiles).
6. It is not recommended to connect more than [4] Light Beams to a power supply.
